# Get more from Personio with: Professional Services

Service	Description	Duration
Office Hours	Use these to gain additional knowledge on best practices specific to your use case/account.	1 hour
Go Live Support	Dedicated support on the day you launch Personio or related apps in your company.	1 day
Post Go Live Hypercare	Named contact to refine your processes and address any questions you have in the week(s) after your go live. This will be provided via video call and email.	X weeks
App/Feature Implementation	Upgrading to one or more of our additional apps? We will walk you through how to set it up, or set it up for you.	2 weeks per app
Health Checks	We review your entire account set up, before offering suggestions on how to streamline your workflows/processes, as well as additional insights into how to get the best out of your subscription. (Can also be done for a specific app)	1 week
Training	We'll help you define your training needs before delivering this to you/your employees.	2-8 hours (8 hours split over 2 weeks)
Account Split	Need a 2nd account with the same settings so that different users can access it? We can help you do this.	3 weeks
Account Merge	If you wish to merge your Personio account with that of another company (or multiple companies), we can do this for you.	5 weeks

# Get more from Personio with: Professional Services (Technical)

Service	Description	Duration
Documents Import	We help you to import your documents from other Personio accounts, or external storage tools via our API.	2 weeks
BI Connection	Are you using a Business Intelligence tool to visualise complex data? We'll help you use Personio as your source of truth, in absence of direct integrations.	2 weeks
Extract Transform Load (ETL) Services	Would you like to automate the input of various data types into Personio? Think absences, job applications, or general employee information. We'll help you do this with ease.	2-4 weeks for initial setup
Custom Career Page	We take the heavy lifting out of creating your own personalised career page, tailored to your requirements.	2-8 weeks for initial setup
Integration Project	We can support you with multiple use cases including: integrating with other HRM tools, pulling time tracking information, pushing data from Personio to other tools, all via our API.	Needs to be scoped
Integration Discovery Workshop	Here we help you to understand the potential additional ways in which you can connect Personio to your existing tech stack. Or we help you to understand what integrations exist/can be built to improve your workflows.	2 weeks
Technical Office Hour	Advisory call to help your technical team/person responsible for Personio unblock any issues they might be having with our API.	1 hour
